## Are Household Toxins Affecting Your Family's Health?

What really happens to a child when exposed to cleaners? This child was exposed to Pinesol (on the floor) and Lysol (disinfectant).

You can see what happens during exposure, and when not exposed, and the after re-introducing the cleaners.

Is your Family part of a Giant Chemistry Experiment? Check it out!

<http://youtu.be/WS33IGiisJQ>

### The Life of a Boot.

The life of a boot is, actually there is no life of a boot, boring, dull, dreary, sad, miserable and very depressing. Boots are used mainly during the winter. When they are used, they are treated very, very much like dirt. People don't realize it but they are actually hurting the boot. I would hate to be a boot because they kick around snow, walk in slush and get very messy. They actually have <sup>no</sup> feelings because they are not alive. I don't think they are not alive because they don't eat, breathe, grow and reproduce. I think this report is stupid because it is a ridiculous topic but I will do it anyway. I am so stupid because I name my boots. I have many boots so I name all of them. My blue boots are called bluey and my green boots are called greeny. I know you are glad to know the names of my boots. I know naming my boots is pretty childish but at least I have an imagination. Most boots have a friend to talk, communicate with and share the feelings.

Figure 13.1. Linda's penmanship deteriorates from exposure to the pungent odor of chlorine bleach.

# *Pottenger's* **CATS**

A STUDY IN NUTRITION

*"If it is true with human beings, as it is with cats,  
that nutritionally-caused degeneration  
is passed down to our children,  
a sobering challenge stands before us!"*

*- From the film, Pottenger's Cats*

**Francis M. Pottenger, Jr., MD**

The changes Dr. Pottenger observed in cats on deficient diets paralleled the degeneration that Weston A. Price, DDS, found in people who abandoned traditional foods.

## Built on trust

- Dr. Shaklee – 100 years of innovation
- Leading Global Natural Nutrition Company
- 64 patents/patents pending worldwide

Dr. Forrest C. Shaklee created the first multivitamin in the US in 1915

Roger Barnett leading the next 100 years of Shaklee innovation

Better health for everyone and a better life for anyone.

## the Shaklee difference

At Shaklee, we believe that nature holds the answers to a healthy and productive life. By using pure and potent ingredients and the foremost scientific research, we formulate nutrition products that are truly life enhancing.

### PURITY

Quality ingredients,  
safe products

### POTENCY

Extensive studies,  
effective nutrients

### PERFORMANCE

Better absorption,  
better results

**Shaklee**  
Creating Healthier Lives®

**"You won't believe your mirror" That's for sure.**

All the vitamins your skin craves.

**Enfuselle®**  
Advanced Skin Care - Nutrition Therapy™

**Vitamins for your skin**

The same nutrients that help keep you healthy on the inside also play a huge role in how you look on the outside. 50 years of scientific nutrition research has been applied to developing the most advanced therapeutic skincare system around providing you the answer to healthy-looking, beautiful skin.

Walt Woernle used Enfuselle on half his face.

Dramatic Results in only **7** weeks!

**Burned with a flash fire from a gasoline can.**

The results were first and second degree burns to his face and ears.

In conjunction with Bacitracin to prevent bacteria, he used Shaklee Vita-C, OmegaGuard and Nutiferon 3 times a day to fight infection and inflammation, and help with repair. After the second or third day he applied the skin products multiple times a day.

He mixed the Calming Complex with the am and pm repair products in his hands and then applied this to his face.
